EXPERTISE AND QUALITY OF SERANİT ALL AROUND THE WORLD

Over 300 points of sale in 60 countries.

We present a wide range of products manufactured with the superior technology and quality of Seranit through over 300 points of sale in 60 countries around the world.

seranit

seranit

A pioneer for 'breakthroughs' with its superior quality since 1992.

Founded in Bilecik in 1992 as Turkey's first porcelain tile factory, Seranit joined Sinpaş Holding in 2002 as one of the largest holdings in Turkey at the end of its 10th anniversary.

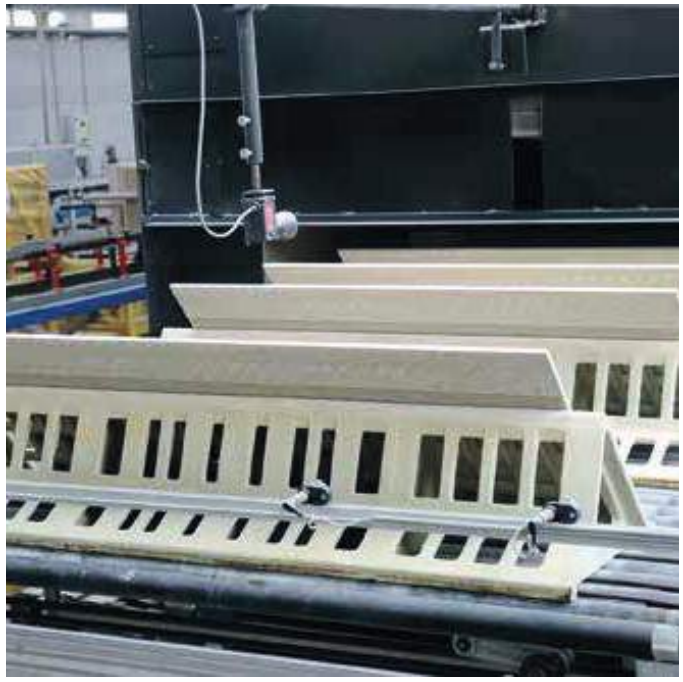

Ever since its foundation, it continues its operations based on the vision of "including all its stakeholders into its journey of excellence to become a leading global brand that contributes to the society and world". It manufactures environmentally-friendly products through its quality concept of adding value to life, spaces and the environment according to national and international standards.

"As a pioneer that manufactures unique products such as Superwhite Technical Porcelain and Aquanit Porcelain Shower Tile; Seranit provides services through approximately 300 points of sale in 60 countries around the world with its wide range of products from 10x10 cm to 90x135 cm.

Seranit produces its products to add value to projects with its superior technology by applying indoor and outdoor places in many tourism facilities in Turkey and abroad and continues its leadership in the field of ceramic and porcelain tiles."

Seranit adds value to projects with its products that can be applied in diverse areas such as houses, hospitals, shopping centers, transportation networks, cultural centers, tourism buildings and supermarkets.

SLIP RESISTANCE

DIN 51130 SLIPPING STANDARD

Porcelain tiles have different slip resistance depending their surfaces. The usage area of tiles are related to their slip resistance values. This values are rated between 9 and 13, also indicated by R rating. The selection of tiles are subject to type of area and its slip resistance requirement.

VALUE	SLIPING ANGLE
R_9	6° <= Angle <= 10°
R_{10}	10° <= Angle <= 19°
R_{11}	19° <= Angle <= 27°
R_{12}	27° <= Angle <= 35°

NOTES

Seranit recommends a joint of min. 3 mm for optimal installation results.

The test results refer only to first choice items and they do not regard the trimtiles.
The values are based on average production values.

Seranit granit seramik reserve the right to modify technical and formal details included in this catalog.
